

Project Management and Quality Plan

L.J.P. Speijker (NLR)

This report contains the Project Management and Quality Plan for the ASCOS project, performed as part of the EC 7th Framework Programme. ASCOS addresses the sub programme “Design systems and tools”, within the area/topic “Operational Safety” of the activity “Ensuring customer satisfaction and safety”. ASCOS aims to develop certification process adaptations, with supporting tools for safety based design and safety monitoring, to ease the introduction of major safety enhancements.
